- Informed Consent
- Confidentiality and Anonymity
- Avoidance of Plagiarism
- Ethical Approval Processes

Candidates may be asked to discuss the importance of adhering to ethical guidelines throughout the research process.

Types of Questions Typically Found in the Research Methodology Paper

The question paper is designed to evaluate both theoretical understanding and practical application. Common question formats include:

- Short Answer Questions

Focused on definitions, concepts, and brief explanations (e.g., "Define research hypothesis.")

- Descriptive / Essay-type Questions

Require detailed elaboration on topics like research design, sampling, or data analysis.

- Case-based or Scenario Questions

Present a research scenario requiring analysis and methodological recommendations.

- Application Questions

Ask candidates to design a brief research plan for a given problem statement.

- Critical Analysis Questions

Evaluate the strengths and limitations of different research methods or ethical practices.
