- Player B struggled with return placement, especially against wide serves, resulting in frequent break points.
- Rally length analysis showed Player A favored short, aggressive exchanges, while Player B engaged in prolonged baseline rallies.

Based on these insights, the coach devises strategies:

- For Player A: Continue emphasizing strong first serves and quick points.
- For Player B: Practice returning wide serves and improving endurance for longer rallies.

This example illustrates how a well-structured match analysis sheet informs tactical adjustments and training priorities.

Challenges and Future Trends

While a tennis match analysis sheet offers numerous benefits, challenges include:

- Data Overload: Filtering relevant metrics from vast data can be daunting.
- Subjectivity in Qualitative Data: Interpreting behavioral cues may vary.
