- It aids in evaluating profitability by departments, products, or services.

Core Concepts of Hospitality Managerial Accounting

Cost Classification and Behavior

Understanding costs is fundamental for effective managerial accounting. In hospitality, costs can be

classified as:

- Fixed Costs: Costs that remain constant regardless of occupancy or sales volume, such as property taxes, salaries of management staff, and depreciation.
- Variable Costs: Costs that vary directly with occupancy or sales, such as laundry supplies, food ingredients, and guest amenities.
- Semi-Variable Costs: Costs with both fixed and variable components, like utility bills that have a base charge plus usage-based fees.
