Historical Background of Greek Languages

Classical Greek

Classical Greek refers to the form of the Greek language used during the 5th and 4th centuries BCE, particularly in Athens during its golden age. This period is marked by the flourishing of literature, philosophy, art, and democracy. Notable figures such as Plato, Aristotle, Sophocles, and Herodotus wrote in Classical Greek, which became the standard literary and scholarly language of ancient Greece.

Classical Greek is characterized by its rich vocabulary, complex grammar, and a highly inflected structure. It is the language in which many foundational texts of Western civilization were composed, including Plato's dialogues, Aristotle's works, and the tragedies of Sophocles and Euripides.

Koine Greek and the New Testament

Following the conquests of Alexander the Great, Greek spread across the Hellenistic world, leading to the development of Koine Greek (?Common Greek?). This dialect became the lingua franca of the Eastern Mediterranean and was the language of commerce, administration, and everyday communication.

The New Testament, composed in the 1st century CE, was written in Koine Greek. It differs in style
