Features of the ICT GCSE Specimen Paper Markscheme

Detailed Mark Allocation

The markscheme specifies how many marks are awarded for each part of a question. This granularity helps in assessing partial understanding and encourages students to attempt all parts of a question.

Model Answers and Key Points

For open-ended questions, the markscheme often provides model answers and highlights key points that must be included to achieve full marks. This guides examiners in identifying the essential elements of student responses.

Levels of Response or Banding

Some questions are graded using a banding system, where responses are categorized into levels based on quality:

- Basic
- Adequate

- Good
- Excellent

This approach recognizes varying degrees of achievement and provides nuanced grading.

Use of Examiner Notes

Additional notes may clarify common misconceptions, acceptable alternative answers, or specific issues to watch for during marking.
