Street vert is a hybrid of street skating's technical tricks and vert skating's height and airtime, demanding both finesse and bravery.

What is Downhill Skateboarding?

Downhill skateboarding focuses on high-speed descents down steep roads, hills, or specially designed courses. It's akin to racing, where skaters aim to reach top speeds safely while maintaining control over their boards. Downhill skateboarding combines elements of racing, precision, and risk management. The sport has grown in popularity due to its adrenaline rush and the sense of freedom it offers.

Key Differences and Overlaps
